Accessorized INFINITI Q50 with Mobil 1™ brings the love of driving to 2023 SEMA Show

- Enthusiast-focused accessories build on purposeful, luxurious performance of Q50 RED SPORT 400*
- Striking NISMO LM-RS1 forged 19-inch wheels bolster appearance, with choice of three finishes
- Performance accessories can be ordered off the showroom floor, or added to a vehicle during ownership

NASHVILLE, Tenn. – INFINITI brings adrenaline to the 2023 SEMA Show in Las Vegas with the debut of a customized INFINITI Q50 RED SPORT 400. Showcasing factory-tuned accessories that enhance its performance quotient, the sports sedan will be on display in the Las Vegas Convention Center, Central Hall, booth #24651, Oct. 31-Nov. 3.

Appealing to those who seek even more excitement and personalization in their vehicle, INFINITI Motorsport Parts are precisely designed and engineered to work with owners' vehicles. Shoppers can have parts installed to personalize their new car right off the showroom floor, or owners can return to the INFINITI Motorsport website to reinvigorate their passion for their vehicle with a fresh dose of excitement.

Accessories that make Q50 uniquely yours

The INFINITI Q50 RED SPORT 400 at SEMA showcases the variety of ways owners can personalize their vehicles, highlighting parts and accessories available for [Q50 sedan](#), [Q60 coupe](#) and certain accessories for passionate owners of INFINITI's G37 and G35. Parts and accessories shown by INFINITI at SEMA are engineered to enhance the vehicle's performance and design – helping it boldly stand out from the crowd on the street.

Under the hood, Q50's twin-turbo 3.0-liter engine is supplemented for SEMA with a billet-aluminum coolant expansion tank, offering 70% higher volume than the factory tank and a sharp appearance; an auxiliary intercooler tank, providing an additional 1.7 gallons of coolant for the intercooler; a CARB-approved performance cold-air intake; and a heat exchanger with a thicker core and greater surface area than factory.

Optimizing engine performance is Mobil 1 0w-20 advanced full synthetic motor oil, featuring anti-wear technology that provides exceptional protection against engine wear.

Around back, an INFINITI Performance cat-back exhaust adds a purposefully tuned, exhilarating exhaust note, along with the added curb appeal of a laser-etched INFINITI logo on the tips.

To supplement the car's impressive agility, the Q50 also features INFINITI Performance Street brake pads, which offer increased stopping performance; and suspension enhancements including INFINITI Performance front upper arms, rear traction rods, endlinks and more, all contributing to greater suspension adjustability and capability.

Public debut of stunning lightweight wheels

No aftermarket build is complete without a show-stopping set of wheels, and the Q50 is no exception, rolling on a set developed by Nissan Motorsports (NISMO). The NISMO LM-RS1 wheels stun with thin spokes enabled by strong-yet-lightweight forged 6061 aluminum alloy construction. Their design represents the best of NISMO performance know-how, adhering to strict internal NISMO standards and meeting rigorous testing requirements.

Measuring 19 inches in diameter by 9.5 inches in width, and featuring NISMO center caps (INFINITI center caps available), the wheels are offered in a choice of black, anthracite or bronze semi-gloss finishes.

These wheels are the newest addition to the INFINITI accessory package and are ideally suited for Q50 RED SPORT 400, as well as other Q50 and Q60 models. Find more information at your local INFINITI retailer or at parts.infinitiusa.com
