FOR RELEASE TBD

2024 INFINITI QX55 rewards drivers with daring style, a luxurious interior and advanced driver assistance technologies

NASHVILLE, Tenn. – The 2024 INFINITI QX55 stands out from the crowd with a distinct, daring profile. QX55 has the undeniable appeal of a captivating, luxurious interior and an abundant list of premium features.

For the 2024 model year, a wireless device charging pad and Rear Door Alert are newly standard. QX55 also benefits from a revised shifter, cupholder and center console design.

Like all 2024 INFINITI models, lease or retail, sold in the United States, QX55 includes the convenient benefit of [INFINITI Premium Care](#)¹. For QX55, this integrated maintenance program provides 36 months or 22,500 miles coverage (whichever occurs first) of routine maintenance, including oil changes and tire rotations, expanding on the luxury automaker's tradition of providing top-rated customer satisfaction.

The 2024 INFINITI QX55 is available in three grades: LUXE, ESSENTIAL and SENSORY. The 2024 QX55 is on sale now with a starting MSRP² of \$50,000. (See full pricing details for all 2024 QX55 grades.)

Confident performance

QX55 delivers a powerful and confidence-inspiring driving experience through the use of the world's first mass-produced [variable-compression turbocharged \(VC-Turbo\) engine](#)³. The advanced 2.0-liter engine is rated for an impressive 268 horsepower and 280 lb-ft of torque. It can seamlessly change its compression ratio to optimize for improved fuel efficiency or greater power output, depending on the driver's demands. The engine is paired with an XTRONIC transmission that features Downshift Rev Matching and standard paddle shifters to help deliver

a more engaging driving experience. Plus, the INFINITI's Drive Mode Selector allows drivers to select between Standard, ECO, Sport and Personal powertrain modes to further tailor the vehicle's responses and performance.

This advanced powertrain helps QX55 deliver fuel economy figures of 22 mpg city, 28 mpg highway and 25 mpg combined⁴.

INFINITI Intelligent All-Wheel Drive is standard on every QX55, providing additional confidence and constantly adjusting torque delivery to prioritize efficiency or traction, as needed⁵. When slippage is detected, the system can direct up to 50% of engine torque to the rear wheels.

Daring yet welcoming design

The QX55 catches the eye whether on the move or at a standstill thanks to its stunning profile, with its roofline gently arcing toward the tail in a dramatically cohesive line. Its distinctive double-arched grille flanked by LED headlights, minimalist rear end and wide, powerful stance give QX55 undeniable road presence. On all grades, 20-inch wheels are standard, further sharpening the vehicle's visual punch. Six exterior color choices have been chosen to complement QX55's body lines: Hermosa Blue, Graphite Shadow, Slate Gray, Black Obsidian, Dynamic Sunstone Red and Radiant White.

A low and driver-centric dashboard sets the stage for the interior of QX55. "Zero Gravity" seats help keep occupants more comfortable on longer drives. Stunning interior design choices include standard leather-appointed seats and dark aluminum trim pieces. SENSORY elevates the cabin with open pore black Natural Maple Wood accents, LED ambient lighting, semi-aniline leather-appointed seating and metallic cargo area scuff plates.

QX55's dramatic shape does not compromise its ability to transport passengers and their belongings. The rear seats slide, recline and have a 60/40 split folding function, and offer generous legroom. The cargo area offers 26.9 cubic feet of stowage, expanding to 54.1 cubic feet when the rear seats are lowered. A standard power liftgate, with motion-activated function on the SENSORY grade, eases access to cargo.

Connected technology and reassuring driver assistance

The appeal of QX55 continues with convenient connectivity from the standard INFINITI InTouch⁶ infotainment system. It features an 8-inch upper and 7-inch lower screen, with Android Auto™ and wireless Apple CarPlay®. Occupants can keep devices charged thanks to four USB ports throughout the cabin, plus a standard wireless charging pad. On the ESSENTIAL and SENSORY grades, the system includes navigation.

To make music, podcasts and other media even more immersive, QX55 ESSENTIAL and SENSORY have a Bose® Performance Series Audio System with 16 speakers, including metallic speaker grilles on the tweeters in the door panels.

An impressive array of safety technology helps build peace of mind, with Predictive Forward Collision Warning, Forward Emergency Braking with Pedestrian Detection, Blind Spot Warning, Lane Departure Warning, Rear Cross Traffic Alert, Rear Automatic Braking and High Beam Assist standard on all QX55 grades.

Standard ProPILOT Assist⁷ is equipped to help ease the driver's workload in certain driving situations. The system can help keep the driver stay centered within their lane and assists with acceleration and braking, reducing driver stress on longer highway journeys. QX55 ESSENTIAL and SENSORY add additional driver assistance with Traffic Sign Recognition and Around View® Monitor with Moving Object Detection. The SENSORY grade additional features a head-up display.

The 2024 INFINITI QX55 is on sale now. For full details on the features included on each grade level, see the full specification sheet.

1. INFINITI Premium Care is provided through Elite Protection Program. For complete information concerning components covered, and those components which are excluded from coverage, read your actual service contract because its terms, conditions, exclusions, and limitations control. In Florida, INFINITI Elite Extended Protection Program is backed by IESNA,

Inc., P.O. Box 685004, Franklin, TN, 37068-5004. License #60128. ELITE® and Elite Protection Program are trademarks of Nissan North America, Inc.

2. All prices are Manufacturer's Suggested Retail Price (MSRP). MSRP excludes \$1,195 destination and handling charge, tax, title, license [and options]. Retailer sets actual price.
3. World's first production Variable Compression Turbo engine launched by Nissan Motor Co., Ltd. in 2018
4. 2024 EPA Fuel Economy Estimates: 22 City/28 Highway 25 Combined. Actual mileage may vary with driving conditions. Use for comparison only.
5. Intelligent All-Wheel Drive cannot prevent collisions or provide enhanced traction in all conditions. Always monitor traffic and weather conditions.
6. Available feature shown. Use feature only when safe and legal. Compatible device and service required. Subject to third party service availability. For more information see www.infinitiusa.com/intouch/legal.
7. ProPILOT Assist cannot prevent collisions. It is the driver's responsibility to be in control of the vehicle at all times. Always monitor traffic conditions and keep both hands on the steering wheel. System operates only when lane markings are detected. Does not function in all weather, traffic and road conditions. System has limited control capability and the driver may need to steer, brake or accelerate at any time to maintain safety. See Owner's Manual for safety information.
