

For Immediate Release

**2014 Infiniti QX50 – A Uniquely Personal Expression of Style,
Offered With Standard Leather-Appointed Seating, 3.7-Liter V6
and 24-Hour Infiniti Personal Assistant™**

The 2014 Infiniti QX50 luxury crossover, previously known as the Infiniti EX, provides a uniquely personal expression of style – combining a right-sized sculpted exterior, a rewarding interior environment and suite of advanced technology features ranging from Around View® Monitor (AVM) to Distance Control Assist (DCA). The QX50 also delivers both a rewarding driving and ownership experience, with a standard 325-horsepower 3.7-liter V6 and the Infiniti Personal Assistant™, which offers 24-hour access to live concierge services.

It is available in four models: QX50, QX50 AWD, QX50 Journey and QX50 AWD Journey. The AWD models feature Infiniti's Intelligent All-Wheel Drive system.

Personal Style, Inside and Out

The QX50's exterior combines the look and feel of a luxury coupe and a crossover's flexibility – with sporty proportions, including a long hood, short front and rear overhangs, rearward cabin and smooth coupe-like roofline. Along with its excellent around town maneuverability, the wide rear hatch and low load floor make the QX50 a versatile performer for both everyday and weekend use. The exterior includes many signature Infiniti touches, including a double-arch grille, large L-shaped headlights, available xenon auto-leveling headlights with Adaptive Front lighting System (AFS), integrated fog lights, distinctive LED taillights and "dynamic arch" profile.

Other exterior features include a high-mounted rear hatchback spoiler with integrated brake light, chrome-finished dual exhaust tips, an available power sliding tinted glass moonroof with tilt feature, sliding sunshade and one-touch open/close (standard on QX50 Journey models) and available roof rails. The QX50 also features a standard courtesy light integrated in the driver's outside mirror as part of the hospitality lighting concept. Six exterior colors are offered for 2014: Malbec Black, Midnight Garnet, Graphite Shadow, Liquid Platinum, Black Obsidian and Moonlight White.

The QX50's dramatic interior offers an invigorating and engaging environment, one that is both indulgent and inspiring. The driver-focused "wave-inspired" cabin layout features an Infiniti signature "double-wave" instrument panel, easy-to-read high-contrast gauges, hospitality lighting with a pin LED light mounted over the center console and Infiniti signature analog clock. The instrument panel also features a 7-inch color display with Infiniti controller for the trip computer and additional vehicle information, including the available Infiniti Hard Drive Navigation System. Other technology systems include an available Bluetooth® Hands-free Phone System, and standard Infiniti Intelligent Key with Push Button Ignition and SiriusXM Satellite Radio (SiriusXM subscription required, sold separately).

An 8-way power driver's seat and a 4-way power passenger's seat are standard. A driver's seat memory system is also offered, along with heated front seats (standard on QX50 AWD and QX50 Journey models) and an 8-way power front passenger's seat. Also available is a power remote up-folding feature with dual controls (operated from the front or the hatch area) for the 2nd row 60/40 split seat. The interior is offered with standard premium leather-appointed seating surfaces, available in three colors – Graphite, Wheat and Chestnut. There is also a leather-wrapped shift knob, and leather-wrapped steering wheel includes controls for audio and cruise control.

Infiniti QX50 models feature aluminum interior accents, while QX50 Journey models offer maple interior accents. The available Bose® Premium Audio System includes 11 speakers (including 2 subwoofers), AM/FM/CD in-dash changer and USB connection port for iPod® and other compatible devices. The advanced Infiniti Hard Drive Navigation System includes Voice Recognition (VR) for audio and navigation, NavTraffic with Real-Time Traffic Information, NavWeather with Real-Time Weather Information (SiriusXM subscription required, sold separately), Zagat Survey® Restaurant Guide and Streaming Audio via Bluetooth®.

The available advanced Around View® Monitor (AVM) utilizes four small cameras located front, side and rear to give the driver a “top-down view” of the outside of the vehicle and help reduce blind spots when parking. The AVM system includes Front and Rear Sonar.

Offered at no charge for the first four years of ownership is the Infiniti Personal Assistant™, provides new Infiniti owners access to a team of professional personal assistants from a registered phone. Information and service requests range from directory assistance and weather forecasts to arranging tasks such as hotel or dinner reservations on the caller’s behalf.

Advanced Platform and Powertrain

Under the QX50’s dramatic body is an equally advanced platform and powertrain. The FM (Front Midship) platform helps provide high levels of handling performance. Every 2014 Infiniti QX50 comes standard with a VQ37VHR 3.7-liter V6 engine, rated at 325 horsepower and 267 lb-ft of torque. The engine is matched with a 7-speed automatic transmission with manual shift mode, DS mode with Downshift Rev Matching (DRM), and Adaptive Shift Control. QX50 fuel economy is rated at 17 mpg city/25 mpg highway for rear-wheel drive models and 17 mpg city/24 mpg highway for all-wheel drive models.

Superb handling is provided by a subframe-mounted independent front double-wishbone suspension with aluminum-alloy upper and lower links, high-performance Dual-Flow Path® shock absorbers and stabilizer bar. The rear suspension is an independent multi-link design with aluminum-alloy upper and lower links and axle housing, high-performance Dual-Flow Path® shock absorbers and stabilizer bar.

Steering is provided by a vehicle speed-sensitive power-assisted steering system. The QX50's standard braking system includes power-assisted front and rear discs (vented front) and standard Anti-lock Braking System (ABS) with Electronic Brake force Distribution (EBD) and Brake Assist. Also standard is Vehicle Dynamic Control (VDC) with Traction Control System (TCS), while an advanced Intelligent Cruise Control (Full-Speed Range) is optionally available.

Available wheel and tire combinations include standard 18-inch 8-spoke metallic finish aluminum-alloy wheels with 225/55R18 all-season tires or optional 19-inch split 5-spoke aluminum-alloy wheels with 245/45R19 all-season tires.

Infiniti QX50 AWD models feature Infiniti's Intelligent All-Wheel Drive system, which utilizes an active torque distribution management system with an active center clutch. The electromagnetic AWD system responds quickly, helping to minimize wheel slip in adverse conditions.

Standard safety equipment includes an Infiniti Advanced Air Bag System (AABS); driver and front passenger seat-mounted side-impact supplemental air bags; roof-mounted curtain side-impact supplemental air bags for outboard occupant head protection; and a Tire Pressure Monitoring System (TPMS).

Also standard are 3-point ALR/ELR seat belts (driver's side ELR only) and front seat belts with pretensioners and load limiters and adjustable upper anchors, front seat Active Head Restraints and the LATCH (Lower Anchors and Tethers for CHildren) system for the rear outboard seating positions. The QX50 also features advanced Zone Body Construction with front and rear crumple zones to help disperse crash energy around the passenger compartment.

Available as part of the Technology Package is the Blind Spot Warning (BSW) system. BSW illuminates an indicator light if another vehicle is detected in the blind spot area. If the driver then uses the turn signal, the indicator flashes and an audible warning sounds.

Models and Packages

The 2014 Infiniti QX50 is available in four models: QX50, QX50 AWD, QX50 Journey and QX50 AWD Journey. QX50 Journey models include power sliding tinted glass moonroof with tilt feature, sliding sunshade and one-touch open/close, Bluetooth® Hands-free Phone System, auto-dimming inside mirror, HomeLink® Universal Transceiver, maple interior accents and power tilt/telescopic steering column. Heated front seats are added on QX50 Journey models (standard on all QX50 AWD models).

Just three option packages are offered for 2014 QX50 Journey models. The Premium Package includes the Infiniti Hard Drive Navigation System with NavTraffic with Real-Time Traffic Information, NavWeather with Real-Time Weather Information (SiriusXM subscription required, sold separately) and Zagat Survey® Restaurant Guide, Voice Recognition for audio and navigation, Streaming Audio via Bluetooth®; Bose® Premium Audio System with 11 speakers including 2 subwoofers; Around View® Monitor (AVM) including Front and Rear Sonar System; Advanced Climate Control System (ACCS) with Plasmacluster® air purifier, and aluminum roof rails.

The Deluxe Touring Package features 19-inch split 5-spoke aluminum-alloy wheels with 245/45R19 all-season performance tires; High Intensity Discharge (HID) xenon headlights; Adaptive Front lighting System (AFS); dual occupant memory system for driver's seat, outside mirrors and steering wheel; entry/exit assist for driver's seat and steering wheel; outside mirrors with reverse tilt-down feature; 2-way power driver's seat lumbar support; coat hanger on driver's seat head restraint; 8-way power passenger's seat, and power up-folding 2nd row seats.

The Technology Package features Lane Departure Warning (LDW) and Lane Departure Prevention (LDP); Intelligent Cruise Control (Full-Speed Range); Distance Control Assist (DCA); Intelligent Brake Assist (IBA) with Forward Collision Warning (FCW); and Blind Spot Warning (BSW) system.
