2018.5 INFINITI QX30 AT A GLANCE

Now in its second year of availability, the INFINITI QX30 continues to set the standard for the segment with a number of enhancements and revisions for mid-model year. The new 2018.5 QX30 features include:

- Revised model naming – PURE, LUXE, ESSENTIAL and SPORT
- Revised package content and naming, including the ProASSIST Package (previously Technology Package)
- Forward Emergency Braking now standard
- New City Black Package, available only with the QX30 SPORT 2WD, features a black suede-like headliner and A-pillars, purple contrast stitching on Graphite leather/leatherette areas, purple key fob accent, 19-inch machine finished aluminum-alloy wheels with purple accent and more
- Panoramic moonroof now standard on LUXE, ESSENTIAL and SPORT
- Blind Spot Warning standard on ESSENTIAL and SPORT
- New Pearlescent Black exterior paint color

The 2018.5 QX30 again makes a bold visual statement backed up with premium interior appointments, responsive performance and an extensive suite of advanced safety, security and driving assistance technologies.

In addition to its striking appearance, the QX30 offers confidence-inspiring handling and an available Intelligent All-Wheel Drive system on LUXE and ESSENTIAL models. As a result, the QX30 is ideal to take on urban, suburban and winding rural roads in a range of driving conditions.

Bold design, indisputably INFINITI

The QX30 exterior is characterized by dramatic curves and turbulent, sculpted character lines that make an emotional statement. Standard exterior features include signature LED daytime running lights and auto on/off halogen headlights, with available LED headlights with Adaptive Front lighting System and auto high/low beam function, and LED fog lights.

The QX30 LUXE AWD and QX30 ESSENTIAL AWD include unique front and rear lower fascias, extended overfenders, unique black mold-in color side sills, roof rails, unique 18-inch machine finished aluminium-alloy wheels and a higher ride height.

The QX30 SPORT includes unique front and rear lower fascias, gloss black grille, body-color side sill panels, metallic trunk finisher, chrome exhaust finishers and

unique 19-inch Gun Metallic aluminium-alloy wheels. It also features a slightly lower ride height than standard QX30 FWD models.

INFINITI's daring design approach continues inside the stunning QX30, challenging traditional standards of symmetry with its expressive, modern and dynamic interior.

Inspired driving dynamics

The QX30's advanced powertrain delivers a confidence-inspiring, dynamic driving experience aided by available Intelligent All-Wheel Drive. The standard 2.0-liter four-cylinder turbocharged engine is rated at 208 horsepower at 5,500 rpm, with peak torque of 258 lb-ft available from 1,200 rpm. In combination with the 2.0 turbocharged engine, the standard Idle Stop-Start System shuts down and restarts the engine to reduce the fuel consumption and emissions

All 2018.5 QX30 models feature a 7-speed dual-clutch transmission. The dual-clutch intelligently pre-selects gears so the next shift is always ready to go, while manual mode lets the driver control gear changes when desired. Delivering seamless acceleration at any speed and in any gear, the application of torque is almost uninterrupted during gear changes, reducing lurching while in motion and between shifts. Paddle shifters and drive mode selector are standard.

Intuitive technologies enhance an engaging driving experience

All QX30 models offer a range of standard features including Bluetooth® Hands-free Phone System, Forward Emergency Braking, cruise control, INFINITI Intelligent Key, two 12-volt power outlets and Dual Zone Automatic Temperature Control with rear seat vents on the console. Two USB ports allow phone charging while listening to music on a USB stick or drive.

Advanced audio, navigation and connectivity systems are also available, including a Bose® 10-speaker audio system and standard HD radio, SiriusXM® Radio (3-month trial period SiriusXM® subscription required, sold separately) and INFINITI Voice Recognition to control phone, navigation –if equipped–, Bluetooth® audio streaming and vehicle information. Standard on the 2018.5 QX30 is SiriusXM® Travel Link with access to weather, fuel prices, stocks, sports and movie times (with a 4-year trial period).

As expected of any INFINITI, a range of advanced driver assistance technologies are available. The QX30 SPORT features the Intelligent Park Assist system, which uses 12 sensors to determine if a potential parking spot is the right size. If it is, the driver simply presses a button to confirm and operate the accelerator, shifter and brake pedal. The QX30 will steer itself smoothly in parallel or reverse-in parking spots. Intelligent Park Assist is also available on QX30 ESSENTIAL models as part of the optional ProASSIST Package.

Other available technologies include Blind Spot Warning (standard on ESSENTIAL and SPORT), Lane Departure Warning, advanced Around View® Monitor with Moving Object Detection and Intelligent Cruise Control.

Highlights of the 2018.5 INFINITI QX30 include:
